*'You're **my new daily habit**. I dig this newsletter! It gets to me at a time when I can read it. The voice is fantastic and I click on several links. Love the management section at the bottom.'*

"[The Latest's reports and stories](#) are exactly what folks involved in any way with media can find useful and likely are interested in. Your antenna is up clearly, and your research finding and synthesizing the stories and providing the links is an invaluable and unique contribution to the field."
